

Washroom Control System

The Washroom Control System has been specially designed to meet the requirements of the modern day prison and police cell. Dart Valley Systems offer individual controls for taps, showers or W.C. flushing however, the Washroom Control System offers an outstanding value for money all encompassed control package.

The Control System is capable of managing 'W.C. Flushing' (working with DVS WC Flushvalve), 'Hot and Cold Tap Control', 'Shower Control' and a 'Call-Out Button' for manual or computer interfacing,

All of the above controls have the built in option of 'Lock-Out', to limit the amount of operations in each period of adjustable run times.

Typical Installation

This product is best used with the DVS moulded resin 'Wash Basin' with in-built spouts and no-touch sensors (sensors not included).

D800/WB
Wash Basin with
In-Built Spouts

Basin Features

- Anti-Shatter Moulded Resin
- Anti-Ligature Design
- Built-In Water Spouts (Inc.)
- Optional Back Plate
- Moulded Soap Shelves
- Rear Entry Waste Outlet
- Secure Wall Mount Fixings
